ICONIQ[®] Smart Water Heaters. Saving you money everyday.

SMARTER HOT WATER STARTS WITH RHEEM

Rheem ICONIQ® Smart Water Heaters. Saving you money everyday.

SMART, RELIABLE HOT WATER FOR KIWI HOMES.

The Rheem ICONIQ® Smart Electric Water Heater stores hot water ready for when your family needs it. Powered by EcoNet™, ICONIQ® connects seamlessly to your home Wi-Fi, giving you greater control, visibility, and efficiency through the EcoNet™ App. An electric heating element, managed by an advanced thermostat and smart scheduling, ensures consistent performance throughout the day.

COST SAVINGS THROUGH TIME-OF-USE

Time-of-Use tariffs supply power to the water heater around the clock, with different pricing at different times of day. ICONIQ® leverages this through scheduling in the EcoNet™ App, helping you heat water when rates are lower while still ensuring supply when needed. ICONIQ® is engineered to work efficiently with these tariff types, ensuring steady performance, intelligent energy use, and always-ready hot water.

SMARTER HOT WATER STARTS HERE

With the EcoNet™ App, you can take the guesswork out of your hot water. Whether you're at home or away, you'll have the power to stay in control, saving energy, reducing bills and never running out of hot water when you need it most.

THE ECONET™ APP – POWERFUL FEATURES HELPING YOU MANAGE YOUR HOT WATER ENERGY CONSUMPTION
