

Rheem Remote Filter Kit Warranty Australia & New Zealand

1. WHAT IS COVERED BY THE RHEEM WARRANTY FOR THE BOILING WATER UNIT DETAILED IN THIS DOCUMENT
 - 1.1 Rheem will repair or replace a faulty component of your Filter Kit if it fails to operate in accordance with its specifications as follows:

This Rheem warranty covers commercial and industrial installations		
Coverage	Warranty Period	Warranty Cover
What components are covered	The period in which the fault must appear in order to be covered	What coverage you receive
All components	1 Year	Free replacement of failed component.

2. ENTITLEMENT TO MAKE A CLAIM UNDER THIS WARRANTY
 - 2.1 To be entitled to make a claim under this warranty you need to:
 - a) Be the owner of the filter kit or have consent of the owner to act on their behalf.
 - b) Contact Rheem Service without undue delay after detection of the defect and, in any event, within the applicable warranty period.
 - 2.2 You are not entitled to make a claim under this warranty if your filter kit:
 - a) Does not have its original serial numbers or rating labels.
 - b) Is not installed in Australia or New Zealand.
3. HOW TO MAKE A CLAIM UNDER THIS WARRANTY
 - 3.1 If you wish to make a claim under this warranty, you need to:
 - a) Contact Rheem on Australia 131 031 or Rheem in New Zealand on 0800 657 335 and provide owner's details, address of the filter kit.
 - b) (Australia Only) Rheem will arrange for the filter kit to be tested and assessed on site.
 - c) (New Zealand Only) A Rheem service centre will arrange for filter kit to be tested and assessed on site.
 - d) If Rheem determines that you have a valid warranty claim, Rheem will repair or replace the filter kit in accordance with this warranty.
 - 3.2 Any expenses incurred in the making of a claim under this warranty will be borne by you.
4. THE AUSTRALIAN CONSUMER LAW (AUSTRALIA ONLY)
 - 4.1 Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.
 - 4.2 The Rheem warranty (set out above) is in addition to any rights and remedies that you may have under the Australian Consumer Law.

INSTALLATION

The Rheem Filter Kit is designed to supply filtered water to Rheem boiling water appliances.

The Rheem Filter Kit must be installed:

- by a qualified person, and
- in accordance with the installation instructions, and
- in compliance with Standards AS/NZS 3500 and all local codes and regulatory authority requirements.
- In New Zealand, the installation must also conform with New Zealand Building Code, refer to the compliance documents Clause G12 Water Supplies.

Product performance is dependent on incoming water conditions.

Do not use with water that is microbiologically unsafe or of unknown quality without adequate disinfection before or after the system.

OPERATING SPECIFICATIONS

Min / Max pressure: 70 – 860 kPa (10 – 125 psi)

Min / Max inlet temperature: 2 – 38 °C (35 – 100°F)

Min / Max flow rate: 0.5 – 4 l/min (0.1 – 1 gpm)

Capacity: 11355 litres (3000 gallons)

Rated flow: 3.8 l/min (1.0 gpm)

SERVICE

Rheem recommends that the water filter cartridge is replaced every 12 months or sooner if flow reduces to ensure the system is performing to a high standard.

For cartridge replacement instructions refer to the label on replacement cartridge.

If the water filter is not regularly serviced and maintained at the recommended intervals, the water filter cartridge will block with the trapped impurities causing bacterial growth in the filter media and dramatically reducing filtered water flow, affecting the operation of the boiling water unit.

For more information please call the Rheem Service Department.
